#SACHSENKÜCHEN

Viel, viel, Vielfalt.

Lots and lots of variety. // Une diversité infinie. // Heel erg veelzijdig.

Die schwindelfreien und ganz aktuellen Gestaltungsfakten: 173 Frontdekore in 51 Modellen, 31 Lackfarben in 4 Glanzgraden, 23+2 Korpus-Dekore mit Dekorgleichheit innen und außen, RAL-, NCS- und Sikkensfarben auf Wunsch, 115 Griffe und Knöpfe und, und, und. So geht Gestaltungsfreiheit bei Sachsenküchen.

The remarkable and very latest design facts and figures: 173 front decors in 51 models, 31 lacquers in 4 gloss levels, 23+2 body decors with matching designs on the inside and outside, RAL, NCS and Sikkens colours available on request, 115 handles and knobs, and so much more. This is what Sachsenküchen offers when it comes to freedom of design.

Des faits actuels véridiques concernant nos aménagements: 173 décors pour façades en 51 modèles, 231 peintures laquées en 4 degrés de brillance, 23+2 décors de caissons avec décors identiques pour l'intérieur et l'extérieur, des peintures RAL, NCS et Sikkens sur commande, 115 poignées et boutons et, et, et... Chez Sachsenküchen vous bénéficiez d'une liberté de choix infinie.

De actuele ontwerpmogelijkheden: 173 frontdecoren in 51 modellen, 31 lakken in 4 glansgraden, 23+2 corpusdecoren met decorgelijkheid aan de binnen- en buitenzijde, RAL-, NCS- en Sikkens-kleuren naar wens, 115 grepen en knoppen en nog veel meer. Dat is de ontwerpvrijheid van Sachsenküchen.

Woodline Möbelfronten

furniture fronts // façade de meuble // meubelfronten

Die Natur fasziniert mit ihrer schier endlosen Vielfalt an Formen und Farben. Da Individualität bei uns groß geschrieben wird, wollen wir diese Vielfalt auch in Ihre eigenen vier Wände bringen. Durch die Auswahl und Kombination von Holzart, Oberflächenstruktur, Beizton und Modell ermöglichen wir Ihnen genau das. Eine beispielhafte Auswahl an Möglichkeiten finden Sie auf der nachfolgenden Doppelseite.

Nature fascinates us with its seemingly endless variety of shapes and colours. As individuality is so important to us, we also want to give you the chance to enjoy this diversity inside your own four walls. By selecting and combining the right wood type, surface structure, stain shade and model, we enable you to do just that. You can find a sample selection of the possibilities available to you on the following double page.

La nature fascine par sa variété infinie de formes et de couleurs. L'individualité étant pour nous un aspect essentiel, nous voulons aussi faire entrer cette diversité dans votre propre intérieur. En sélectionnant et en combinant le type de bois, la structure de surface, la teinte de vernis et le modèle, c'est exactement ce que nous vous permettons de faire. Vous trouverez à titre d'exemple une sélection d'options sur la double page suivante.

De natuur weet met haar vrijwel eindeloze variaties aan vormen en kleuren te fascineren. Omdat individualiteit bij ons hoog in het vaandel staat, willen wij deze veelzijdigheid ook naar uw thuis vertalen. Door de keuze en combinatie van houtsoort, oppervlaktestructuur, beistint en model maken wij dit mogelijk. Een voorbeeld van enkele mogelijkheden vindt u op de volgende dubbele pagina.

Holzarten

Wood types // Essences // Houtsoorten

Definieren Sie den grundlegenden Charakter der Front. Äste und Risse in verschiedenen Größen lassen die Front lebhafter wirken.

Define the basic character of the front. Knots and cracks in different sizes bring the front to life.

Définissez le caractère principal de la façade. La présence de nœuds et de fissures de différentes tailles donne à la façade un aspect plus vivant.

Definieer het basiskarakter van het keukenfront. Knoesten en scheuren in verschillende maten geven het frontje een levendigere uitstraling.

Oberflächenstruktur

Surface structure // Texture de surface // Oppervlaktestructuur

Definieren Sie die optische und haptische Beschaffenheit der Oberfläche. Verschiedene Werkzeuge tragen unterschiedlich viel Material ab und arbeiten das Porenbild unterschiedlich stark heraus.

Define the look and feel of the surface. Various tools remove different amounts of material and work out the pore pattern to different degrees.

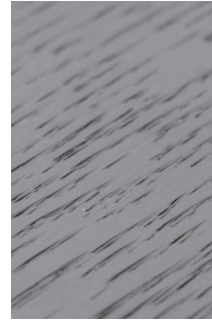

Définissez la texture visuelle et tactile de la surface. Les différents outils d'usinage enlèvent des quantités de matériau différentes et font ainsi ressortir le dessin des pores à des degrés divers.

Definieer de optische en haptische kwaliteit van het oppervlak. Verschillende gereedschappen verwijderen verschillend dikke materiaallagen en zorgen ervoor dat de poriën van het hout meer of minder opvallen.

Die Natur und ihre unendliche Farbvielfalt stand Pate für die Lackfarbpalette. Zurückhaltende, rauchige, wohnliche Farben haben perfekt abgestufte Farbgeschwister, die in 3 Sättigungsstufen und 15 natürlich anmutenden, lebendigen Farben unendliche, immer ausgewogene Kombinationsmöglichkeiten offerieren und zu ganz neuen Perspektiven modernen Gestaltens einladen.

Nature and its infinite variety of colours were the inspiration for the colour palette. Understated, smoky, homely colours have perfectly graduated colour relationships that offer endless, constantly balanced combination options in three saturation levels and 15 natural-looking, vibrant colours, serving up completely new perspectives on modern design.

C'est la nature et son infinie variété de couleurs qui ont inspiré la palette de couleurs des vernis. Ces couleurs sobres, fumées et chaleureuses possèdent des équivalents aux dégradés parfaits, qui offrent des possibilités de combinaison infinies et toujours équilibrées dans 3 niveaux de saturation et 15 couleurs vives d'aspect naturel et vous invitent à découvrir de toutes nouvelles perspectives en matière de design moderne.

De natuur en haar oneindige veelzijdigheid vormden de inspiratiebron voor het kleurenpalet. Decente, rokerige, gezellige kleuren hebben perfect passende kleurnuances die in 3 verzadigingsniveaus en 15 natuurlijk aandoende, levendige kleuren oneindige, altijd harmonieuze combinatiemogelijkheden bieden en geheel nieuwe perspectieven binnen een modern ontwerp mogelijk maken.

Der Standardkorpus besteht aus 16-mm-Mehrschicht-Spanplatten mit verdecktem Hängejustierbeschlag inklusive Aushängesicherung. Die 5 mm starke MDF-Rückwand ist eingefalzt und eingeschraubt, die Außenkanten sind versiegelt und der Bodenträger benötigt nur 3 mm Bohrungen. Durch die Dekorgleichheit innen und außen überzeugt unser Korpus auch optisch.

The standard body consists of 16-mm multi-layer chipboard with a concealed suspension adjustment fitting including safety catch. The 5 mm thick MDF rear panel is folded and screwed in, the outer edges are sealed, and the shelf support only requires 3 mm holes. The body has an attractive look thanks to its matching styles on the inside and outside.

Un caisson standard est composé de panneaux agglomérés multicouches de 16mm fixés par des charnières dissimulées et équipées d'un système anti-décrochage. La paroi murale MDF d'une épaisseur de 5 mm est sertie et vissée, les chants extérieurs sont scellés et le support de plancher il ne nécessite que des perçages de 3 mm. Grâce à leurs décors identiques pour l'intérieur et l'extérieur, nos caissons vous séduiront également sur le plan esthétique.

De standaard corpus bestaat uit een 16 mm dikke meerlaagse spaanplaat met verdekt hangkastbeslag inclusief ophangzekerung. De 5 mm dikke MDF-achterwand is ingefreesd en ingeschroefd. De buitenranden zijn verzegeld en de plankdragers hebben een boorgat van slechts 3 mm nodig. Door de decorgelijkheid aan de binnen- en buitenzijde overtuigt onze corpus ook optisch.

Antibakterielle Oberflächen

Wussten Sie's schon? Auch einige unserer Basis-Kunststoffoberflächen verfügen bereits über antibakterielle Oberflächeneigenschaften, ohne aggressive Zusätze in der Herstellung zu verwenden. Damit spielen selbst die einfachen Ausführungen schon in einer Liga mit unseren hochwertigen Lacklaminat- und FENIX-Oberflächen. Das gilt auch für Schichtstoff- und Kompaktarbeitsplatten. Regelmäßig und haushaltsüblich gereinigt und der antibakterielle Schutz hält Keime lange stand.

Antibacterial surfaces

Did you know? Our basic plastic surfaces already feature antibacterial properties, without the use of any aggressive additives during production. This means that even the simplest versions are comparable to our premium painted laminate and FENIX surfaces. The same applies to laminate and compact worktops. With regular cleaning according to typical household standards, along with antibacterial protection, the surfaces will keep germs away for a long time.

Surfaces antibactériennes

Le saviez-vous? Certaines de nos surfaces en plastique d'entrée de gamme sont déjà équipées de surfaces aux propriétés antibactériennes, sans pour autant avoir recours à des additifs agressifs. Ainsi, même nos versions les plus basiques évoluent à ce niveau dans la même catégorie que nos surfaces en stratifié peint et FENIX. Ceci s'applique également à nos plans de travail compacts en stratifié. Il suffit de les nettoyer régulièrement à l'aide de produits de nettoyage usuels pour que la protection antibactérienne reste efficace pendant longtemps contre les germes.

Antibacteriële oppervlakken

Wist u dit? Ook enkele van onze basis-kunststof oppervlakken beschikken reeds over antibacteriële oppervlakte-eigenschappen zonder dat bij de productie agressieve toevoegingen worden ingezet. Hierdoor behoren zelfs al de meest eenvoudige uitvoeringen tot de hoge klasse van onze hoogwaardige laklaminat- en FENIX-oppervlakken. Dat geldt ook voor werkbladen van laminaat en compacte werkbladen. Als de antibacteriële bescherming regelmatig en met gangbare middelen wordt gereinigd, is hij lange tijd bestand tegen ziektekiemen.
